

Directions by Bus

Major works to rebuild the railway bridge in Oxford has meant the busses stop short of the railway station, so, if you’re coming from Oxford you’ll have to take the footpath under the railway lines to get onto the Botley Road. It’s then a short walk over Osney Bridge to the bus stops close to St Frideswide Church.

There are 2 possible bus options – **Thames Travel 63** and **Stagecoach S6**

Thames Travel 63 and 63S do pass through Appleton, stopping at the Post Office, but it’s a very limited timetable and doesn’t run at the weekend: [Oxford Bus Company Thames Travel 63 and 63S](#)

Stagecoach operate the S6 This is/was also a regular bus service which runs between Oxford and Swindon but it no longer passes through Appleton. It stops on A420 at the top of Oaksmere from where it is a walk of just under a mile into Appleton and a further half mile to the campsite.

Stagecoach have a fancy new website. I have pre-loaded the link below with the start and end points of your journey if you’re coming from Oxford Railway Station (preset for 24th May 2024, leaving Oxford at 2pm.)

You will need to **Change Journey** by entering your travel date and the time you want to leave Oxford. **View Itinerary** will give you the actual route the bus follows: [Stagecoach S6](#) (There are some times for the S9 but I’m sure that’s not correct as the S9 goes to Wantage. I think that’s a typo)

This is a link to the S6 timetable to give you a more traditional view. Your journey will begin at Oxford Osney Island for 7 stops, getting off at **Tubney Appleton Turn**, just after the roundabout on A420 at the junction with A338 to Wantage.

[Oxford Bus Company Stagecoach S6 Timetable](#)

It’s then a 1.6 mile, 37 minute walk to the campsite. It’s not a great road for pedestrians – no footpath and the road itself is not that wide. Walk on the right when you can so that you face the oncoming traffic.

Key in ***Appleton Turn (Abingdon)*** and ***Barefoot Campsites***
